FOREWORD

It is our pleasure once again to offer an interesting selection of numismatic material — coins and books that should appeal to every collector.

Six years ago when there were far fewer collectors, one of our leading dealers made the statement that some day in the near future there wouldn't be enough uncirculated coins to meet the collectors' demands and that they would have to turn to collecting of circulated coins. Now with about 10 million collectors and steadily growing in numbers, the prediction has indeed come true. In many instances even the circulated coins are becoming more difficult to find and are steadily increasing in demand and value.

We would like to point out to new bidders, as well as to old, that an **auction sale** is not an **approval sale.** The items listed in this catalogue may be examined before bidding. There will be no returns accepted without our written permission.

The estimated prices serve only as a guide. In the past it has been a practice to bid quite a bit below estimates. Because of the unprecedented demand for coins these low bids hardly ever are successful. Competition is keen for good material. We suggest you bid with the purpose in mind of acquiring the coin.

We have one of the finest stocks of numismatic material in the country, including many rarities in copper, silver and gold.

Please send a want list with your bid sheet for our immediate attention.

Whether "BUYING" or "SELLING" it will be worth your while to contact us . . .

Thanks,

ABNER KREISBERG

and

AN OUTSTANDING CONSIGNMENT OF AMERICAN COIN GLASS AND COLUMBIAN COIN GLASS

(Lots 4462-4503)

Coin Glass was manufactured by The Central Glass Company of Wheeling, West Virginia in 1892 and was sold at the Columbian Exposition. They produced a complete line of pitchers, goblets, compotes, dishes and bowls. The Government stopped the manufacturing because the glass coins resembled U. S. coins and the Government stated that if silver was put between the dies, counterfeit coins would be made. They ordered the moulds broken and the stock destroyed. The Central Glass Co. then made Columbian Coin Glass with pictures of Columbus, etc. instead.

Coin glass was made with both clear and frosted coins. All denominations of silver coins were used except for Three Cent pieces. The figure is Liberty Seated, which

indicates dies were prepared in 1891 at the glass company, which did not know that the Government would change the design of the silver coins in 1892.

Coin Glass is collected by advanced pattern glass collectors as well as coin collectors.
